

Subject: Proposal for Therapeutic Qualification as a Requirement
Date: Saturday, 29 January 2011 8:09:54 PM

Colin Waldron
Optometry Board of Australia

Dear Mr Waldron,

I am an Optometrist who graduated from UNSW in 1983. I have been self-employed in private practice since 1987. I currently have a successful practice in North Sydney which was established in 1992.

I strongly oppose the proposal that therapeutic qualification should be a requirement for general registration of Optometrists in Australia.

Yours Sincerely
Michael Angelos
